CCPOA EMERGENCY VEHICLE OPERATION COURSE

WEDNESDAY, OCTOBER 7TH, 2026

SAYLORVILLE RESORVOIR, 1:00-5:30 PM

Station 1 Parking Course:

Lesson Description:
This driving lesson is designed to simulate common parking and turning maneuvers. There are four parking boxes officers will have to park in while driving both forward and in reverse. A knocked over or displaced parking cone counts as an automatic failure. To simulate a more stressful situation much like the ones officers will encounter, the course will be timed.

Straight Line Backing/Threshold Braking: Station 2

Lesson Description: This driving lesson will focus on improving the understanding and ability to smoothly stop a vehicle. Officers will bring the vehicle to at least 25 miles per hour until reaching the cue cones. The instructor running the course will determine if speeds can be increased or should be decreased based on vehicle and environmental conditions. At this point they will smoothly apply the brake and bring the vehicle to a controlled stop before reaching the cones signaling the stopping point.

The backing course will focus on improving the officer's understanding and ability to properly back a motor vehicle in a straight line. Drivers will use their side mirrors to assure that they are not moving towards the cones.

Station 3 Offset Serpentine:

Lesson Description:
This driving lesson will focus on improving the recruit's ability in both forward and reverse driving. It will improve the recruit's knowledge on how a weight transfer can affect vehicle maneuverability. The course will improve knowledge on vehicle pivot point locations and increase understanding of a vehicle's front, side, and rear clearance. Lastly recruits will get better understanding on the benefits of using the vehicle's mirrors.

Emergency Scenarios: Station 4

Lesson Description:
This driving course is designed to better prepare officers for emergency driving situations. Officers will drive through a course which will present multiple obstacles that they've seen in previous precision driving courses. They will recognize and safely maneuver around any obstacles. The officers will practice due regard by slowing down and clearing every intersection they approach. Emergency lights and sirens shall be used. The course will end with a scenario which officers will need to appropriately respond to.

This lesson will prepare officers for emergency driving situations through practice. Officers will drive a course having to recognize and successfully navigate many obstacles.

CCPOA EMERGENCY VEHICLE OPERATION COURSE

WEDNESDAY, OCTOBER 7TH, 2026

SAYLORVILLE RESORVOIR, 1:00-5:30 PM

Agenda:

- **Monday, October 5th, 2026:**
  - **10:00 AM - 12:00 PM: all available instructors meet at Saylorville with Varner & Gomez to measure and mark courses.**

- **Wednesday, October 7th, 2026:**
  - **11:00 AM - 1:00 PM: Set cones up on the marked courses at Saylorville**
  - **1:00 PM: Welcome, introductions, & group assignments**

Rotation Order & Schedule:

Parking course > Straight line backing/threshold braking/Offset serpentine > Emergency drills

- **1:10 PM - 2:30 PM: First course assignment**
- **2:35 PM - 3:55 PM: Second course assignment**
- **4:00 PM - 5:10 PM: Third course assignment**

- **5:10 PM take down/sort cones by size and get them to the ILEA trailer.**
- **5:25 PM Debrief and conclude at the ILEA cone trailer.**

GROUP 1:		
First Name	Last Name	County
Brian	Lammers	Hamilton
Zane	Schaffer	Hamilton
Kian	Thompson	Hamilton
Chris	Clingan	Mahaska
Ethan	Zieglowsky	Mahaska
Tommy	VanRenterghem	Mahaska
Scott	Kent	Clarke
GROUP 3:		
First Name	Last Name	County
Aaron	Ohlsen	Johnson
Charles	Bray	Johnson
Jason	Ryan	Marion
Ross	Tuel	Marion
Brandon	Mayland	Marion
Connor	Bailey	Marion
Bryce	Halterman	Crawford
Brad	Koranda	Cedar

GROUP 2:		
First Name	Last Name	County
Dominic	Johnson	Adair
Jonathan	Ehler	Adair
josh	Schaben	Monona
Kaleb	Kaster	Monona
Jack	Davis	Lee
Clint	Oldfield	Lee
Travis	Scott	Ringgold
