FALL-COLORS

[Home](#) > [Activities](#) > FALL COLORS

Iowa is well-known for the splendid autumn colors that arrive in mid-September throughout the rolling hills and landscapes across the state! The golden hues of agriculture blend with the forests and plains to paint beautiful vistas and wonderful scenic byways that are truly the BEST of the Midwest. What better way to enjoy these Iowa gems than to discover them in Iowa's County Park System! We have invited our 99 County Conservation Boards from all corners of the state to share their best locations for you to find some of the most scenic fall foliage for those memorable photos. Click on the parks listed below or check-out the map locations to plan your travel routes this fall as the harvest of colors descends on the trails, side roads and best-kept secrets in this great state! ENJOY YOUR VISITS!

<input type="button" value="Edit"/>	Michael Maas	mmaas	Buchanan	In-Process	Event	https://www.mycountyparks.com/Admin/Park/Event/Event_Registration.aspx?Event_ID=23338	Good afternoon! I was looking at my event and on the 'events' tab it says that my Moonlight Paddle has 14 people registered. When I click on the event to view registration it says that I only have 10 people registered. Then when I click on 'registration attendees' it says there are only 5 people registered. Any ideas why it might be doing this? I am guessing that I actually have 10 people registered for the event because I have all of their information. Thanks for any help!	09/25/2023
<input type="button" value="Edit"/>	Heidi Reams	HReams	Floyd	Unseen	Event	https://www.mycountyparks.com/Admin/Park/Event/Event_Registration.aspx?Event_ID=23473	On the event listing it shows that we have 9 attendees, but when we click on the registration attendees list it only shows one registration for 5 people. We have received the email confirmations for the other registrations. We realize that if the register as a family it will only show as one but no others are shown. We are trying to see exactly how many are attending. (head count)	09/22/2023

<input type="button" value="Edit"/>	Travis Paul	AdamsCCB	Adams	Unseen	Facility	https://www.mycountyparks.com/Admin/County/Default.aspx?U=09151355d	We are discussing the option of adding more campsites to my county parks reservation system. These sites are in the other campground, Lake View. We are wondering how the process would look to set it up in the reservation system and what timeframe this would take. We are possibly wanting it for next summer's season. Thank you for any information.	08/30/2023
<input type="button" value="Edit"/>	Katie Hammond	LouisaCCB	Louisa	In-Process	Facility	https://www.mycountyparks.com/Admin/County/Reservation_Calendar.aspx?action=back	When an exclusion date is made for a specific campsite, it would be nice to have that exclusion show up on the Reservation Calendar. Example: Virginia Grove Campsite 7 was excluded and the box for "outside reservation" is checked, we would like to have that outside reservation indication show up on the Reservation Calendar.	08/24/2023

Screenshots with notes are very helpful:

Good afternoon! I was looking at my event and on the 'events' tab it says that my Moonlight Paddle has 14 people registered. When I click on the event to view registration it says that I only have 10 people registered. Then when I click on 'registration attendees' it says there are only 5 people registered. Any ideas why it might be doing this? I am guessing that I actually have 10 people registered for the event because I have all of their information. Thanks for any help!

DEADLINE TO COMPLETE SURVEY IS SEPT. 25th

mycountyparks.com MyCountyParks.com - Essential Administrative Navigation Survey

With the ICCS Fall Conference and other fall distractions looming, now is a great time to get your MCP.com Survey completed in Survey Monkey! The survey was distributed to all CCB Directors and MCP County Administrators on September 3rd, and we are much-appreciative of the 36 CCBs that have been proactive in completing this task to-date...many thanks!

This particular survey is seeking input from MCP County Administrators from across the state about prioritizing the various administrative functionalities that they find to be essential/useful or antiquated/not used. As we move forward with renovations, improvements and expansion – an underlying top priority is the efficiency of a user's experience – by both the public and administrative users! The more input we have from ALL CCBs across the state, the better we can re-tool what we have and identify your needs for the future – Thanks for participating!

MCP 101 FALL BASIC TRAINING – ONLINE in the ICCS ZOOM ROOM

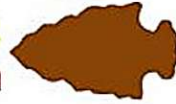

Wednesday, November 8th – 9:00 AM – NOON

As promised this past winter during the reorganization of ICCS and MyCountyParks.com, we announced that we would endeavor to provide a couple of opportunities each year for new CCB Employees and other staff to obtain orientation / basic training / introduction to our ICCS website. Specifically, if you have new employees that have job duties that include administrative manipulation of the myriad of functionalities for your county's portion of MyCountyParks.com, and/or "The Portal" administrative section of our web presence – they should participate in this opportunity. This online session should last approximately 90-120 minutes, followed by a Q&A/Demonstration opportunity. More Information & Registration -

MyCountyParks.com - Essential Administrative Navigation Survey

“Up to this point, most of the design work has focused on what the public user will encounter when visiting the site. We now want to engage with you, **our Site Administrators** - about the essential functionalities that you **MUST HAVE** on the administrative side of the website.”

MyCountyParks.com - Essential Administrative Navigation Survey

As you may be aware, we are well into the planning, design and construction of our new MyCountyParks.com website - due for release in 2024. Up to this point, most of the design work has focused on what the public user will encounter when visiting the site. We now want to engage with you, our Site Administrators - about the essential functionalities that you MUST HAVE on the administrative side of the website. During the first 15 years of our website, we have pretty-much been in the additive mode - expanding features and functions without ever removing anything obsolete - so we also need to ensure that the user-experience is as efficient and uncomplicated as possible. They would prefer to scan a Q.R. code, swipe/tap for payment and be completed within moments.....over the years, WE HAVE MADE THE PROCESS CUMBERSOME....It is time to take an introspective look at what we have. This survey is a major step in our process - we hope you choose to thoroughly participate and provide

CHANGING A MERCHANT ACCOUNT

Your CCB's **MERCHANT ACCOUNT** is attached to your Bank Account via a third-party contract you have with that Merchant Account Provider. It provides the mechanism for credit card \$\$ to be deposited into your bank account. It is NOT attached to MCP.com, and therefore does not involve contacting MCP.com. You **WILL** need to connect it with your Authorize.Net Account to complete any \$\$ transaction.

Your CCB's **PAYMENT GATEWAY ACCOUNT** is your Authorize.Net account, and **IS** connected to MyCountyParks.com via two important numbers – the **API Code** and **Transaction Key**. Any changes to these two numbers are critical, and you **MUST CONTACT MCP.com** to coordinate these changes.

PAYMENT GATEWAY ACCOUNT

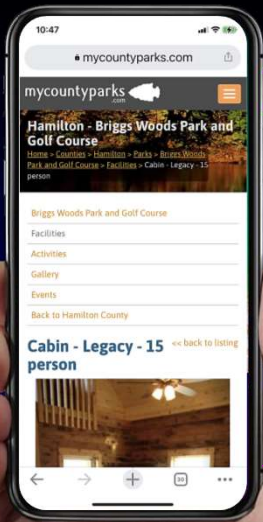

Currently, the only **PAYMENT GATEWAY ACCOUNT** that can be connected to MCP.com is your Authorize.Net account. While there are as many as a dozen **MERCHANT ACCOUNTS** across our CCB System – each E-Commerce CCB operating on MCP.com has their own Authorize.Net account

Transaction Cut-Off Time

The time listed below represents the time of day at which transactions will be picked up for settlement.

Any transactions entered or successfully authorized after the time indicated below will not be sent to the processor for settlement until this time the following day.

It is recommended that the merchant batch cut off time be kept the same on both Authorize.Net and on the Concord processing platform. If the times are NOT kept in sync, there may be batch reconciliation issues.

Setting the batch cut off time only guarantees that the transaction will be picked up for settlement at the cut off time specified, it does NOT guarantee that a transaction will be funded by the processor or acquiring bank at that time.

Transaction Cut-Off Time: 6:00 PM CDT

Select New Transaction Cut-Off Time

Select a new transaction cut off time by choosing the hour and minute and clicking "Submit."

Hour Minute PM

Changes may not take effect immediately. If transactions have already been settled for today the new transaction cut off time will not take effect until tomorrow.

Browser Hygiene: The Importance of Clearing Cache and Cookies

So, what are cookies?
Simply put, "cookies" are actually small packets of data sent to your browser from websites you visit, containing information about your activity on the page, which your browser then saves as a small text file. That information can include your username and password, site preferences, or what you might've left in your Amazon shopping cart -- the browser saves that stuff so you don't have to re-enter it every time, which is nice.

Browsers will normally clear cookies that reach a certain age (30 days) , but clearing them manually may solve problems with web sites or your computer / smart phone browsers.

90% of issues reported by users **AND Administrators** are generally caused by Cookies & Temporary Internet Files. A first assumption should not be that **"The Website is Broken!"**

When & why should I delete them?
Cookies operate in the background, so they're not likely to cause much obvious trouble, but there *are* some instances where you'd want to delete them. The cached data in cookies can sometimes conflict with the website they refer to if the page has been updated, resulting in errors when you attempt to load the page again. Also, since cookies are actually files on your hard drive, they *do* end up taking up some space on your computer, and although each file is only a few KB in size, they can conceivably add up if left untouched for long enough.

PCI-DSS Compliance

The Payment Card Industry Data Security Standard (PCI-DSS) is a set of requirements for all companies that accept, process, store or transmit credit card information to verify data security. **This means as an online merchant, you are ultimately responsible for understanding and meeting PCI-DSS standards.**

Section 1: Assessment Information

Instructions for Submission

This document must be completed as a declaration of the results of the merchant's self-assessment with the Payment Card Industry Data Security Standard Requirements and Security Assessment Procedures (PCI DSS). Complete all sections: The merchant is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact acquirer (merchant bank) or the payment brands to determine reporting and submission procedures.

Part 1. Merchant and Qualified Security Assessor Information
